MARKET REPORT

Wednesday May 8, 2024

Head Sold: 703

Cows/Bulls: 222 Calves/Yearlings: 481

The majority of calves sold today were weaned coming off wheat in the heavier weight classes where the market was mostly steady. We had a lighter test on smaller calves, quality calves held fully steady from last week with some less attractive cattle being sold and bringing the overall averages down a dollar or two. The packer market was back up this week and there was still strong interest in nice young, bred cows.

There is still time to consign to our Value Added Special where we will have our VAC 45, VAC 60 and Stocker VAC calves along with a special segment of weaned Angus Calves in conjunction with the Texas Angus Associations Program! We will see you next week!
